

Signing up for Kaggle Notebooks (with Anaconda as backup)

(Please complete ALL steps before coming to class)

1. Go to: kaggle.com/code
2. Choose “Register”

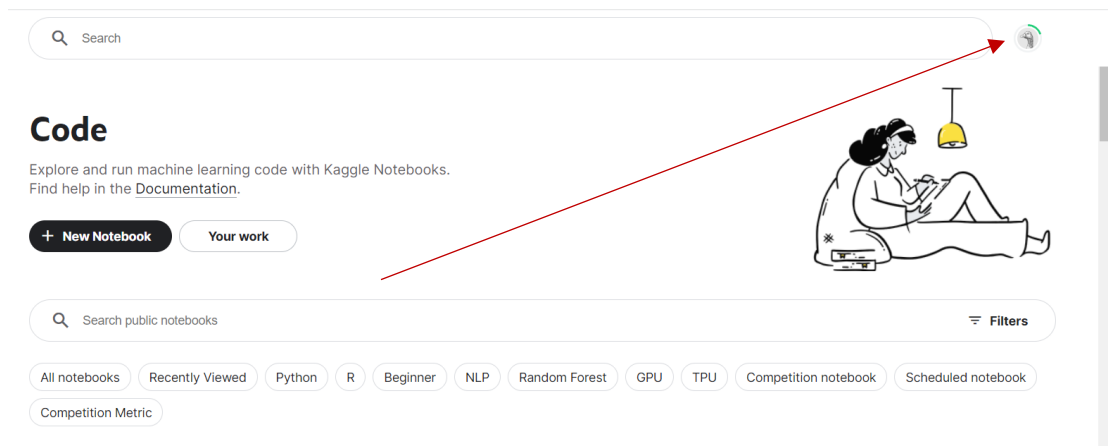

3. Choose “Register with your email”; enter in the relevant details and click “Next”

Two screenshots of the Kaggle registration process. The first screenshot shows the 'Sign In' and 'Register' tabs, with the 'Register' tab selected. Below the tabs are two buttons: 'Register with Google' and 'Register with your email'. A red arrow points from the 'Register with your email' button to the second screenshot. The second screenshot shows the 'Register' form with fields for 'EMAIL ADDRESS', 'PASSWORD (MIN 7 CHARS)', and 'FULL NAME (DISPLAYED)'. There is also a checkbox for 'I'm not a robot' and a checkbox for 'Email me Kaggle news and tips'. A red arrow points from the 'Next' button to the next step in the process.

4. Click “I agree” to the terms and conditions; enter the six-digit code that’s sent to your email, click “Next”, and you’re set! You will still need to verify your account (see steps below).

Two screenshots of the Kaggle account verification process. The first screenshot shows the 'Privacy and Terms' page with a scrollable list of terms and conditions. At the bottom, there are 'Cancel' and 'I agree' buttons. A red arrow points from the 'I agree' button to the second screenshot. The second screenshot shows the 'Verify your email' page with a message: 'We've sent you an email with a six-digit code. Please enter it here.' Below the message is a text input field labeled 'SIX-DIGIT CODE' with a placeholder 'Six-digit code'. At the bottom, there are 'Resend email' and 'Next' buttons. A red arrow points from the 'Next' button to the next step in the process.

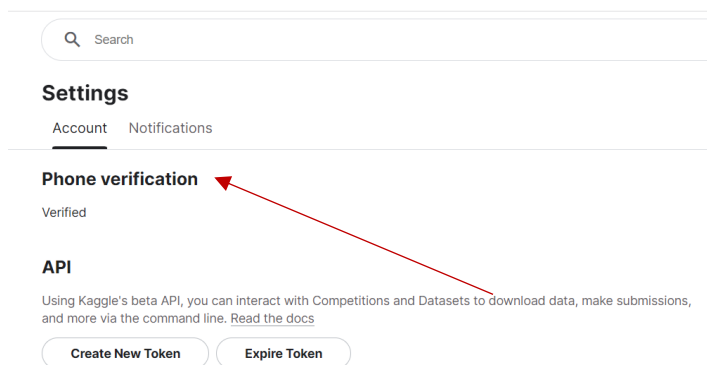

5. Login to your account at kaggle.com/code
6. Click on your account profile on the top right

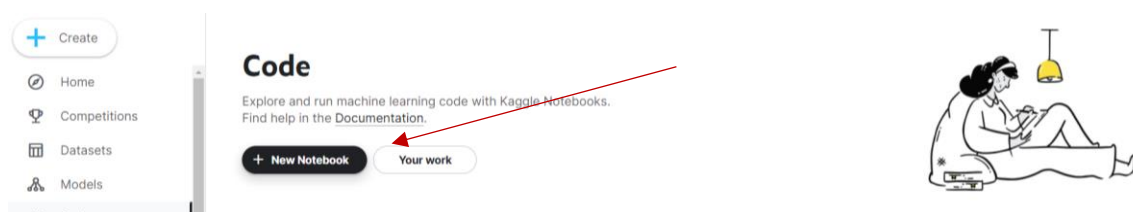

7. Select "Settings" from the dropdown options

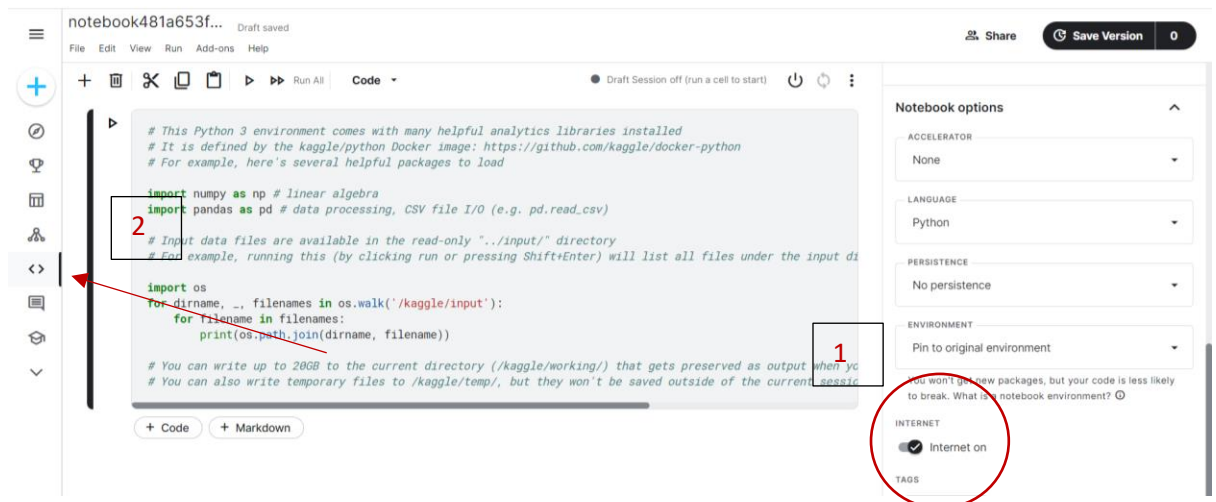

8. Scroll down to where it says "Phone verification" and provide your phone number for verification.

9. After you have verified your account, return to kaggle.com/code, and open a new notebook

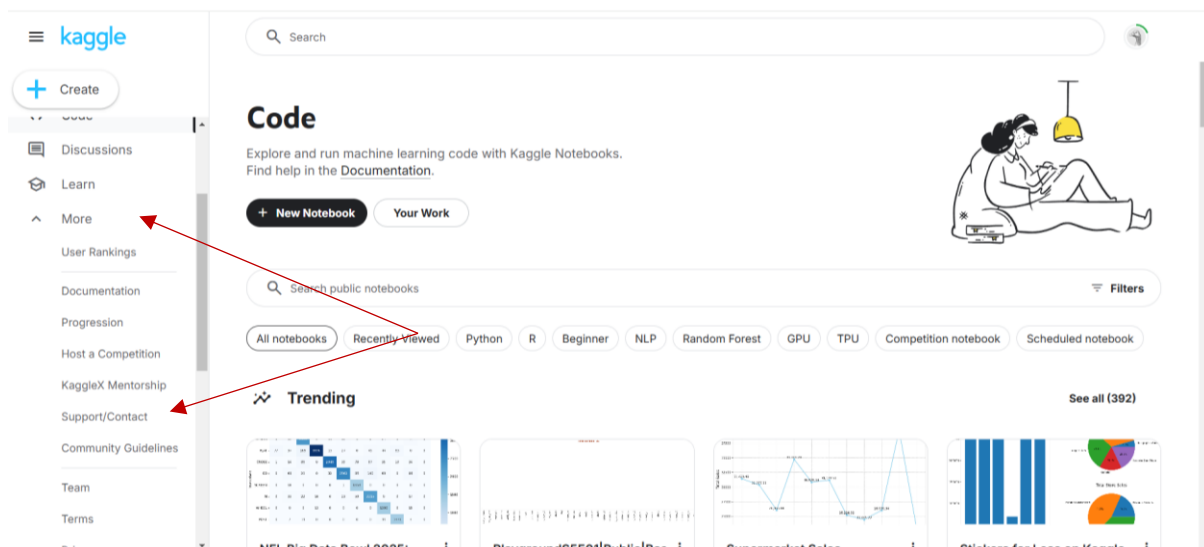

10. Scroll down to where it says “Internet” on the right-hand-side panel and make sure the slider is moved to the right (“Internet on”). You can return to the code section and sign out

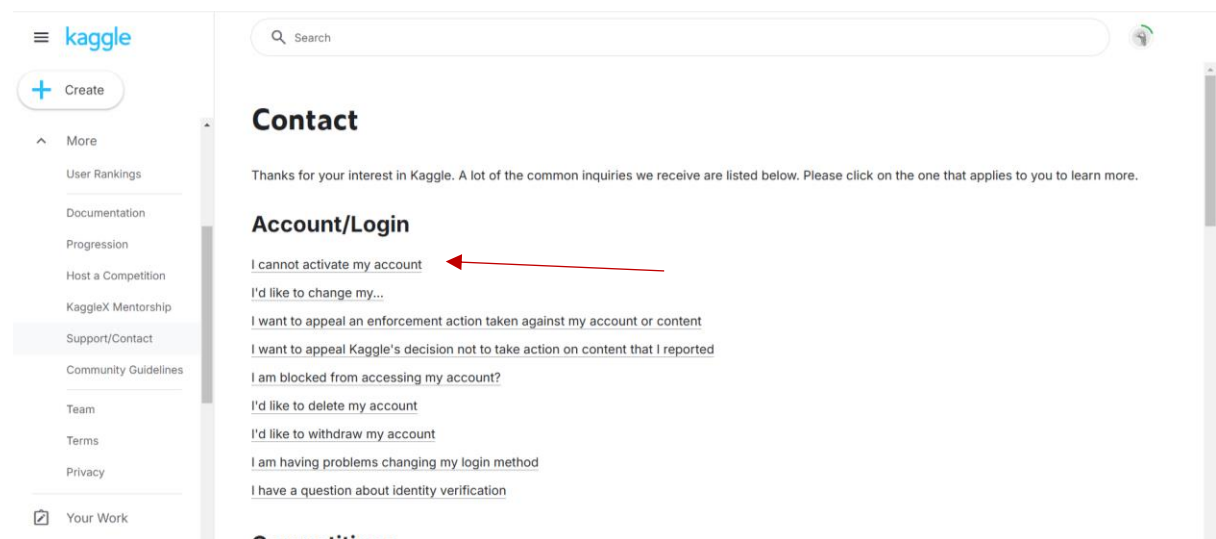

If you are unable to verify your account using your phone number:

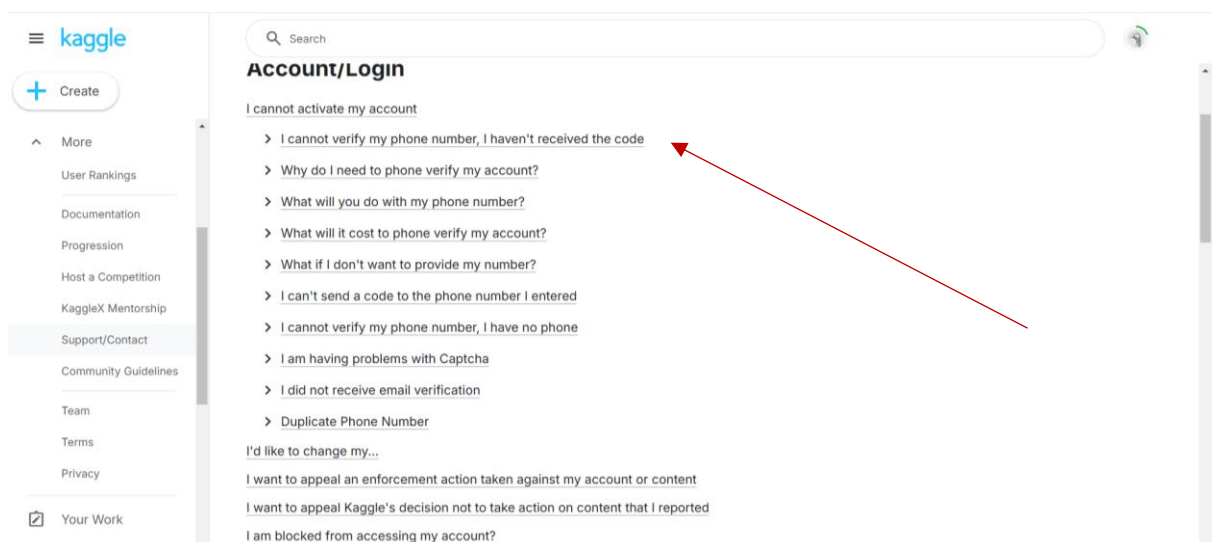

11. Navigate to the Support/Contact section on kaggle.com/code (expand “More” on the LHS panel, and select “Support/Contact”).

12. Select "I can't activate my account."

13. Select "I cannot verify my phone number, I haven't received the code".

14. Submit the online form, including details about your query.

15. Within 24 hours, you should receive an email with instructions on how to verify your phone number.
